

## TROOPS WITHDRAWN BY GENERAL HALE

### INSURGENTS OCCUPYING THEIR LOST GROUND.

Nineteen Sharpshooters Captured by an Idaho Company—Private Mistaken For a Filipino, While on Outpost Duty, Was Shot and Killed by a Sentry.

Manila, March 8.—[Special]—General Hale is withdrawing his troops, and the insurgents are re-occupying their lost ground. Nineteen of the Sharpshooters were captured within the lines by an Idaho company. Private Champion, of the Fourteenth Infantry, while doing outpost duty, was mistaken for a Filipino during the night, and was shot and killed by a sentry. The Negroes and Cebu expeditions landed without any opposition. The native civil officials are retained by the American administration.

Gen. Otis Reports.

Washington, March 8.—[Special]—Gen. Otis reports this morning one killed and eleven wounded in action since the fourth of this month.

Manila, March 8.—A successful attack was made on the insurgents' lines to the southeast of the water works Tuesday morning, and, after two hours' fighting, they were driven from their trenches and retreated to the Pasig river. In the afternoon the Americans again attacked the rebels and drove them across the river, but they returned as soon as our men retired from the chase.

While the Nebraskans were returning to their former position the rebels opened fire on them from places of concealment, and killed Privates Roscoe Young and G. Walker. Capt. C. H. Ough was wounded.

The engagement was then reopened, and during the fighting Maj. Bell was slightly wounded.

Detachments from the Twentieth regular infantry and the First Nebraska and First Wyoming regiments, with four guns of the Utah light artillery, advanced soon after daybreak on the Filipinos' position southeast of the water works. The Twentieth infantry and the Nebraskans flanked the enemy's right, while the battalion of Wyoming troops attacked them in front.

Meanwhile the gunboat Lagunda de Bay, commanded by Maj. Grant, threw a hot fire of shells into the enemy's position.

The enemy was in strong force, but after two hours' fighting they deserted their trenches and retreated to the Pasig river.

Capt. John O'Brien and Private Joseph Sparks of the Wyoming battalion and Private John Curran of the Twelfth infantry were wounded. The weather was extremely hot, and several of the regulars were prostrated by the heat.

The natives resumed their desultory firing in the afternoon on Gen. Wheaton's and Gen. Hale's brigades. Our infantry and artillery replied and soon drove the enemy from their position, but unfortunately not before Private Lovejoy of company C, First Washington, had been killed by a stray bullet.

Gen. Hale subsequently sent out a strong reconnoitering party, which examined the jungle for 500 yards beyond our lines. No live Filipinos were seen, but the bodies of many dead rebels were found where they had fallen in the undergrowth. It is estimated by Gen. Hale that 250 of the enemy were killed.

The village of Tagulug has been burned by the Americans.

Another example of the treachery of the natives was given. Two flags of truce were displayed by the enemy in front of Gen. Overhiser's brigade. Lieut. Koehler and several men were detailed to advance and learn what the Filipinos desired. The lieutenant and his party had gone about 500 yards beyond our lines when it was discovered that the bearers of the flags were armed, and that a number of the natives were concealed in the bush, with the undoubted intention of massacring the Americans who replied to the flags of truce.

As soon as the danger of the situation was revealed Lieut. Koehler and his men started to return to the American lines. They had no sooner turned than the enemy in ambush opened fire on them, but fortunately none of our men was hurt.

### Trouble Expected Today.

Manila, March 8.—The rebels are busily preparing their defenses at various points, and are most aggressive near San Pedro Macati, where their sharpshooters maintain a persistent annoyance. Scott's battery on the hill-top is the center of fire from both sides of the river. Gen. Hale has withdrawn his outposts from the left bank of the stream and is now occupying his original position. Further trouble is probable in the vicinity of the water works, when the rebels rally, but it would be almost an impossibility for them to interfere with the water supply, owing to the strength of our position. The weather is several degrees hotter.

### May Not Wait for Reinforcements.

Washington, March 8.—An unconfirmed report has been floating about to the effect that Gen. Otis has informed the war department that he will not wait for the arrival of Gen. Law-

### The Wonderful Bavarian Passion Play at the Grand

The wonderful Bavarian Passion Play which will be reproduced in soul stirring moving pictures at the Grand this evening is pronounced marvelous by clergy, press and public. The Boston Evening Transcript pays the worthy attraction the following compliment: "Time was when the Passion Plays of the European peasants were only possible to those who made the voyage across the Atlantic, and also took the long, tedious journey across the mountains to the village where, in their simplicity, the humble actors gave their representations with awful earnestness. Now modern invention makes it possible to stay in Boston, and see the same play, described by Prof. Ernest Lacy in his lecture in a manner well calculated to enhance the effect. There was a large audience, and the impressive silence throughout testified to the deep impression created by the exhibition."

Most of them were single men, and they disagreed. The district attorney will try married men in the hope that they will not be prejudiced by the fair prisoner's beauty.—New York Cor. Pittsburg Dispatch.

The Midwinter fair is over, and this town has no fault to find, having captured a goodly share of the prizes. Shopleire.

Shirley Crottsenberg landed the largest fish that was ever caught in the Turtle. We attended the party lately given at Begards hall and an overflow and an inward flow of spirits seemed to predominate until early morn. Music was furnished by Fonda's band assisted by Tuckwood's from Janesville. Cold weather has struck us again and coal dealers begin to smile. The taxidermist of Clinton, P. Crottsenberg, was down here lately to procure the fish caught by Shirley. It is to be placed in his museum of curiosities. Mrs. Theodore Weirick was quite pleased at the three dollar prize taken by her at the Midwinter fair. E. Fonda is now prepared to furnish music for private or public parties as he has lately reorganized his orchestra and secured the best talent that money can secure. Dan Spicer and family have moved back and are now residents of Tiffany. Several candidates straddled the Woodman goat last evening.

## PROF. R. W. WOOD'S LATEST INVENTION

COLOR PHOTOGRAPHY TO BE  
KNOWN AS SPECTOGRAPH.

Norman L. Baker, a Young Attorney, Voluntarily Undertakes a Crusade Against Kenosha Saloons—Burglars Crack Safes at Oshkosh—Other Interesting State News.

Madison, Wis., March 8.—Prof. Robert W. Wood, of the university, inventor of color photography by the use of defraction gratings, said this afternoon: "I have been working on the idea since Christmas, but have kept it quite until it was covered by patents, applications having been taken out in England, Germany, France and America." The photographs that Prof. Wood exhibited were a stained glass window from the First Congregational church, half a dozen brilliant butterflies pinned on a gold and red Roman silk curtain, and also one of a lamp and table. The colors of the glass window are beautiful.

The negatives or positives have no color of themselves and prints on paper can never be made to reproduce color. Glass prints, however, can be easily made and as positives, looked at by transmitted light by the aid of a lens, show up beautiful colors. The photographs might better be called spectographs as it is the superposition of photographs of defraction gratings on the negative that apparently gives the color to the image. Light passing through one of Prof. Wood's color-positives and then through the lens shows up the usual defraction spectra but when the eye is used the true image appears in color.

The professor is having constructed a defraction grating for blue, an addition exposure of the plate to light defracted by this third screen will eliminate the harshness of the red and yellow now obtained. He expects to apply this idea to everyday photography by using successively the red, yellow and blue defraction gratings.

Crusade Against Saloons.

Kenosha, Wis., March 8.—Norman L. Baker, a young attorney, has voluntarily undertaken a crusade against the saloon men for the infringement of the Sunday law and the selling of liquor to minors. He has had a warrant issued for the arrest of a saloon keeper and if he can secure a conviction he will petition the City council to revoke the man's license. Mr. Baker has worked up the case personally, and has a strong chain of evidence against the offender. If he can secure the conviction of one he is confident he can force all the saloon keepers to conform to the ordinance. The case will be watched with much interest.

Burglars in Oshkosh.

Oshkosh, Wis., March 8.—The safe in the residence of Mrs. Mary Forbes, Union street, was "cracked" and robbed Sunday morning. Mrs. Forbes and her daughter Mary were in California and the house is unoccupied. J. B. Tolman, Mrs. Forbes' brother, on making his weekly visit to the house yesterday, discovered the robbery.

Just what was taken is not known, but evidently the burglars didn't want papers and documents, as those were scattered about the floor. The safe was known to contain some silverware and diamonds, which are gone.

The safe was blown to pieces, parts of it being imbedded in the walls of the room.

President Halsey, of the Normal school, who lives next door, heard an explosion at 3 o'clock Sunday morning.

## Chicago Live Stock Markets.

Chicago, March 7.—There were only narrow changes in values today, with the tendency of trade in cattle and hogs slightly stronger. Average prices for hogs stood close to 2½¢ higher and most cattle sold a shade higher where any change could be noted from Monday's prices. Sheep trade was not quite so brisk as Monday, but steady prices were paid after some delay for most of the useful offerings, best lambs selling up to \$5, fat clipped lambs at \$4.25 and fat mixed sheep and yearlings at \$4.50. Today's receipts were estimated at 3,000 cattle, 20,000 hogs and 14,000 sheep, making 15,931 cattle, 57,474 hogs and 32,860 sheep for two days, against 16,407 cattle, 74,976 hogs and 29,820 sheep for same time last week and 24,043 cattle, 65,477 hogs and 38,828 sheep same time last year.

## Is for American Products.

Washington, March 8.—Consul Pitcairn sends from Hamburg to the state department a fresh contribution to the San Jose discussion. He says that the Hamburg chamber of commerce, discussing the question in an apparently impartial way, argues for the repeal of the vexatious and annoying features of the fruit inspection laws on the ground that they cause more loss and inconvenience to German merchants and consumers than is warranted by the real danger involved. Similar ground is taken against the exclusion of American hog products.

## Foreign Mail Not Included.

Washington, March 8.—The postmaster general has construed the regulations relating to the lost registered mail matter so as to exclude all foreign registered matter lost in the United States from the benefits of the indemnity provided by act of February 27, 1897. The universal postal union convention provides a fixed indemnity of \$10 for loss of registered mail payable by the country in which the loss occurs, but the department holds it has no authority to meet this requirement.

## Philadelphia at Samoa.

Washington, March 8.—A cablegram received at the navy department relative to the Philadelphia, which was placed under orders to proceed to Samoa after the outbreak of the recent trouble there, says she sailed from Honolulu Feb. 22 for Samoa. It is about 2,500 miles across the ocean from Hawaii, and it is expected that the Philadelphia is already in Samoa. She probably made the distance in 12 days.

## IS IT A TRIFLE?

THAT COMMON TROUBLE, ACID  
DYSPEPSIA OR SOUR STOMACH.Now Recognized as a Cause of Serious  
Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to digest it, the food remains until fermentation begins, filling the stomach with gas and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets, and is becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by all druggists for 50 cents per package. It is prepared by the F. A. Stuart Co., Marshall, Mich., and while it promptly and effectually restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living.

## COAL INTERESTS POOL.

Hundreds of Millions of Dollars Merged  
Into One Combine.

New York, March 8.—The return of J. P. Morgan from London on the Kaiser Wilhelm der Grosse closed another triumphant chapter in his financial career. He went abroad two months ago to secure assent of the Reading's English stockholders to a scheme that the Vanderbilts, the Pennsylvania railroad management, Maxwell of the New Jersey Central, and W. H. Truesdale of the Delaware, Lackawanna & Western companies, had formulated. The scheme in question is a consolidation of all the great eastern coal interests under one management. The enormous volume of capital invested is enough to turn the head of any ordinary financier. Hundreds of millions have been brought into one trust, and months will be required to finally adjust all the details. Primarily it is estimated that fully \$3,200,000 will be saved annually in operating expenses and the profits increased fully as much more by doing away with all middlemen.

## Oil Trust in England.

Liverpool, March 8.—The biggest British trust yet attempted is of American concocting, and its promoters expect to see it in control within three months. Six months ago the British agent of the American oil trust opened negotiations for a pool of the oil mills of London, Hull and Liverpool, to check the fall in prices caused by the American attempt to crush English and European competition and to secure a working arrangement for the foreign trade. Now the Liverpool representatives of the American oil-mill combination syndicate are confident that the scheme will carry. The trust will have a capital of \$15,000,000 (\$75,000,000).

## Troops Arrive from Cuba.

Newport News, Va., March 8.—The United States transport Thomas, formerly the Minnewaska, has arrived here from Santiago, having on board the Twenty-third Kansas regiment, colored infantry, Lieut.-Col. James Beck commanding. The troops left over the Chesapeake & Ohio for Fort Leavenworth, Kas. The transport was roughly handled by the weather on the voyage from Santiago, which port she left last Tuesday, and it is believed it will be necessary to send her to the dry dock for repairs. There was no sickness of a serious nature on board during the voyage.

## Do Not Favor Roberts.

Kirtland, Ohio, March 8.—The reorganized church of Latter Day Saints (non-polygamist Mormons) has closed a three days' conference here. Delegates were present from a number of states. Resolutions were adopted earnestly protesting against any one guilty of the crime of polygamy or plural marriage being seated or retained as a legislator in the house of representatives of the United States.

## Reports a Case of Smallpox.

Springfield, Ill., March 8.—Dr. L. A. Adelsberger of the state board of health, who was sent to Sparta, Randolph county, to investigate a reported case of smallpox, reports to Secretary Egan that the patient, a negro, is dead, and the case is undoubtedly a true case of smallpox. The case appeared at Eden, a small village one mile east of Sparta.

The company is empowered to manufacture all kinds of cement.

## Eight Persons Meet Death.

Louisville, Ky., March 8.—Seven persons were drowned by high water Tuesday and the damage in the south will reach \$2,000,000. The cotton crop, according to specialists from the south, is a total failure, and the floods will ruin three-fourths of the planters along the Mississippi.

## ILLINOIS LEGISLATURE.

Routine Business Engaged the Attention  
of the Few Members Present.

Springfield, Ill., March 8.—But few of the members were present when the house was called to order Tuesday.

The bill repealing the sparrow bounty of 2 cents per head was ordered to third reading. The bill appropriating \$50,000 for a corn exhibit at the Paris exhibition, which is on second reading, was committed to the committee on appropriations.

There was not a quorum present in the senate, and no business was attempted. Immediately after the reading of the journal an adjournment was taken to 10 o'clock today.

Mr. Rankin's bill to pay the claims of those who furnished provisions and other supplies for the Illinois volunteers, while mobilized in Springfield, comes up on its passage in the house as a special order today.

## Earthquake Shock in Japan.

Yokohama, March 8.—A severe earthquake shock was experienced here at 10 o'clock Tuesday morning, the disturbance visiting localities of the great shock of 1891, with some loss of life and property.

John Schuler, a hard working German farmer from the town of Center, walked into the municipal court yesterday afternoon and asked Clerk Whiton if he would issue a half dozen warrants for the arrest of boys that had taken the liberty to pelt him with snow balls.

## ACCIDENT VICTIMS WERE BURIED TODAY

JOHN RYDER'S REMAINS LAID TO REST.

Services Held From St. Mary's Church This Morning and Were Largely Attended—Frankie Corwin, Who Was Buried to Death, Buried—Other Funerals Were Held.

Funeral services over the remains of the late John Ryder, were held this morning at 9:30 o'clock, from St. Mary's church, Rev. Father Goebel officiating. The sacred edifice was filled with sorrowing friends who were there to pay their last respects to one they loved and to one who met death purely through accident.

Circumstances surrounding the sudden death of Mr. Ryder, show that he accidentally fell into the river and that on account of the high river bank he was unable to rescue himself before exhaustion overtook him and death ensued from exposure.

To the bereaved wife and children, the sympathy of the public is extended.

Several beautiful floral offerings were made this morning at the funeral and at the close of the church services the remains were laid to rest in Mount Olivet cemetery.

Frankie Corwin

Frankie Corwin, four year old son of Mr. and Mrs. Frank Corwin, who was so terribly burned Saturday last by his night clothes igniting from a match with which he was playing, was buried this morning.

Services were held from St. Patrick's church at 10 o'clock and were attended by many sorrowing friends.

Many floral offerings covered the little casket and the bereaved parents have the sympathy of many in this their hour of sorrow.

Walter Buggs.

Funeral services of little Walter Buggs were held from the family residence, corner of Western avenue and Academy streets, this afternoon at 1:30 o'clock and from St. Paul's German Lutheran church at 2 o'clock. The interment was in Oak Hill.

D. T. Kenyon.

D. T. Kenyon, an old resident of Janesville, passed away this afternoon at one o'clock at the county asylum, the result of heart trouble. The departed one was seventy-four years of age. He was a member of the I. O. O. F. order. Notice of funeral will be given later.

ARRIVAL OF MANY TRAMPS

They Poured Into Town Last Evening For Some Unknown Reason.

Janesville, which has for several weeks past, prided herself for being rid of traveling hoboes, can no longer lay claim to such honor.

For some unknown reason, no less than twenty of these wandering Williams arrived in town last evening and instead of staying in the railroad yards they marched in twos down Milwaukee street into the residence and business section.

Officer Beneke arrested twelve and lodged them in jail.

Four hoboes wandered up Milton avenue, frightening several timid women by ringing door bells and inquiring if they could get (?) work.

At the jail Turnkey Brown gave them a menu this morning that would raise a riot in a Russian prison. A pail of water and a loaf of bread that had to be soaked two hours before it would admit a knife, served as breakfast for the twelve. They were then ordered out of town.

TAKEN TO MENDOTA HOSPITAL

Local Domestic Who Tried to Burn Herself to Death.

Mary Murray, who while insane, terribly burned herself by pouring oil over her body and igniting the same, was taken to the state hospital for the insane yesterday by Officer Cochrane.

She was well wrapped in bandages and on account of her actions, Officer Cochrane had much difficulty in preventing her from tearing them off.

She is slowly improving, but is still in a dangerous condition and constantly needs watching.

New Food For Invalids.

We have just received two articles that are extensively used in the sick rooms, and with invalids generally, foods that are highly recommended by physicians.

Ambrosia and Nut Bromose, both of them nut products. Ambrosia makes fat and blood; one pound of it has as much nutriment in it as a pound of beef steak and can be taken by the weakest stomach. It melts in your mouth and agrees with your stomach. Comes at 40 cents per pound can. Nut Bromose is adapted to weak anemic persons, makes fat and blood quickly, and agrees with anyone. It takes the place of cod liver oil in consumption and wasting diseases. Is invaluable for infants and delicate women, a splendid article for weaned or hand fed infants. Bromose comes in one pound jars at 50 cents. Sanborn.

Annual Sale of Muslin Underwear

AN INTERESTING JURY TRIAL

A Mock Jury Trial By High School Students.

The Rusk Lyceum held an unusually interesting meeting in the science room of the high school building last evening. The meeting was for the purpose of holding a trial of three of the high school pupils, Leo Brown, Levi Ross and Stanley Dunwiddie, who were absent at a recent adjourned meeting of the Rusk Lyceum and being on the program of entertainment, were fined ten cents each and an additional ten cents was imposed.

The question for the jury to decide was whether the three young men should pay the fine or be discharged from the Lyceum for failing to comply with the rules.

Roy Owen presided and officiated in the capacity of judge. Thomas Costello and Fred Holt appeared for the prosecution and Burr Scott and Collin Samuels for the defendants.

The jury brought in a verdict that Leo Brown should pay no fine at all; that Levi Brown and Stanley Dunwiddie be sentenced to pay a fine of ten cents each and not twenty, which was illegal; and that all be retained as members of the Lyceum.

The paper is being issued by the creditors for the present awaiting a possible sale.

Interesting Talk At First M. E. Church Last Evening.

Miss Sadie Bosworth, the returned missionary who has spent six years teaching in the institutions of learning at Foo Chow, China, gave another of her interesting talks at the First M. As her previous talks, her lecture was very instructive and listened to by a large audience.

## TWO MOST WORTHY PLAYS ARE IN STORE

THEIR DATES ARE MARCH 13<sup>TH</sup> AND 17<sup>TH</sup>.

The First Engagement is Walker Whiteside, in "The Red Cockade"—Next Comes the Famous Romantic Actor of the American Stage, Robert Mantell.

Mr. Walker Whiteside is booked for an engagement in this city at the Grand, March 13th. He has secured a play founded on Mr. Ponsard's great drama, "Lion Amoureux" which will be known henceforth in its English dress as "The Red Cockade."

This play is a romantic comedy-drama full of heart interest and fine dramatic situations. It is aristocratic in tone and has for the past few years been considered one of the best plays at the Theatre Francaise in Paris. The company maintains the same high degree of excellence that has characterized Mr. Whiteside's companies in the past, including such well-known players as John M. Sturgeon, Frederic L. Power, John C. Hart, Gray B. Towler, Laurence Griffith, Roland Wallace, Miss Lelia Wolston, Miss Grace Hadsell, Miss Elizabeth Hunt and Miss Antoinette Walker.

The next notable attraction is the famous Robert Mantell, at the Grand, March 17.

Mr. Mantell is today without doubt the representative actor of the romantic school in this country. We have seen much of his work and admit it to be always artistic and powerful. He has of late confined himself to heroic roles and in favor of the French authors, D'Ennery, Dumas, Ohnet and Sardou.

It will be remembered when Mantell came to live and act among us, his first hit was made in a Sardou play, when as Loris Ipanoff, he fairly divided the honors with Fanny Davenport in Fedora. With that performance (like Byron) he woke up one morning to find himself famous, and recognizing the admission of his fitness, he followed up his success with roles of the same school.

When George Rignold disappeared from our horizon, it was said that the handsome giant's mantle fell upon Mantell. Both of these gentlemen graduated from the same academy of acting, and in turn have held the palm as stage heroes; especially have they been favored by the ladies, who in the days of romantic youth, feast their sentimental souls on the Appolos of the drama, from Henry V. and Hotspur to Loris Ipanoff, Raphael, and Monsbars' lovely girlhood has been made glad and sad at the stage stories which illustrated the love and courage of a handsome man.

HARRY SWIFT had the misfortune to be kicked by an unruly horse this morning. A deep gash was cut over the right eye.

The Thoughtful Circle of King's Daughters are planning on an art lecture to be given in the Congregational church parlors next month. Miss Bosworth will lecture.

## NO NEARER A SETTLEMENT.

Miners and Operators in Conference Still Unable to Agree.

Springfield, Ill., March 8.—Nothing was accomplished Tuesday at the joint conference of miners and operators, and a settlement of the existing difficulties is no nearer now than when the joint conference opened a week ago.

The joint session adjourned after being in session only a short time, owing to the absence of several operators from the northern district. Before adjourning the operators moved that the scale be referred back to the subscale committee.

The demands of the miners will be contested to the bitter end by the operators from all over the state. The operators are in a better position at present than ever before. At the recent annual meeting of the Coal Operators' association the report of the secretary showed that over 90 per cent of the total tonnage of the state was represented at the meeting. They have combined and will fight the proposed advance of the northern miners to the end.

The miners persist that the advance asked for is only done in justice to the northern miners, who have been working at starvation wages for the past ten years.

## Gov. Pingle's Bill Passed.

Lansing, Mich., March 8.—The Atkinson railroad taxation bill, Gov. Pingle's pet measure, was passed by unanimous vote by a hostile state senate Tuesday. It was not done, though, until the adoption of radical amendments, but these, it is held, do not affect the main principles of the measure. The house will undoubtedly concur in the amendments. Then, after the governor's signature has been attached, the constitutionality of the law will at once be attacked.

## Beef Court on the Way West.

Washington, March 8.—The court of inquiry appointed by the president to report whether impure meat was furnished the army during the war with Spain left Tuesday night on the Pennsylvania railway to Chicago, where it will continue the inquiry. After leaving Chicago, the court will visit Kansas City, St. Louis, Omaha and New York city.

## Egan Going to Honolulu.

Washington, March 8.—Gen. Charles F. Egan, who has remained in Washington since the court-martial suspending him from the service for his attack on Gen. Miles, left Washington last night. He will go to San Francisco, and thence embark for Honolulu, where he has a son who is largely interested in coffee plantations.

## Senator Jones Out of Danger.

Washington, March 8.—Senator J. K. Jones of Arkansas is considerably improved, and no immediate danger is apprehended. The senator rested easily last night, but it is stated that he will be subject to periodical attacks unless he preserves the utmost quiet for at least a month.

Bargain seekers should not fail to visit the dining rooms of The Mrs. Clark Co., 151-153 Wabash Ave., Chicago, which is the very center of the shopping district. This restaurant has the finest cuisine and service in the city and the prices are moderate.

The restaurant on the 7th floor of the Association building in La Salle street is also run by this company and is equally inviting and attractive.

## Hayward Will Be Senator.

Lincoln, Neb., March 8.—M. L. Hayward has been given the republican caucus nomination for senator. When Judge Hayward is declared elected formally by the legislature it will be on the forty-third ballot of the joint session, and the end of the longest deadlock of any description ever held in the state.

## WINE OF CARDUI

## THE LINK THAT BINDS.

JACKSON, TENN., NOV. 28.

I was subject to miscarriage for three years, and suffered constantly with backache. I wrote to you for advice, and after using three bottles of Wine of Cardui, according to your directions, I am strong and well, and the mother of a fine girl baby.

Mrs. E. N. JOWERS.

## Wine of Cardui

There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The prattling and cooing of the little ones offset a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disorders known as "female troubles". Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, fitting the wife for the sacred duty of reproducing her kind. During the period of gestation the entire system of the expectant mother is built up to withstand the ordeal of labor, and when the little one makes its advent it is lusty and strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread. Wine of Cardui is truly a wonderful medicine for women.

## MCKINLEY APPROVES PLANS.

Measures to Organize a Regular Army of 65,000 Men.

### DIFFERENT ARMS OF SERVICE.

All Regiments and Batteries Will Be Brought Up to Full War Strength—Volunteers Enlisting in the Regular Service in Large Numbers.

Washington, March 8.—The plans of the war department for the organization of a regular army of 65,000 men and the distribution of the enlisted strength among the several branches of the service were approved by President McKinley, and will be carried into effect at once. Secretary Alger carried to the cabinet meeting Tuesday a statement prepared under the supervision of Adj. Gen. Corbin, showing the basis of company, troop and battery organization, the number of enlisted men allotted to the infantry, cavalry and artillery, and the staff departments and the total enlisted strength that will be necessary to fill the regiments under the plan proposed. This statement was accepted and approved by the president.

The new army will absorb 63,095 enlisted men, leaving a surplus of 1,905 recruits on hand all the time to fill vacancies. Each regiment of artillery will have 14 batteries of 120 men each, making a total of 1,680 men. The heavy batteries will contain the same number of men as the light batteries. Under the other law heavy batteries had more men than light batteries.

Each troop of cavalry will contain 100 men, making 1,200 men to the regiment. Each company of infantry will contain 112 men, making 1,344 men to the regiment. The allotments of enlisted men for a battery of artillery and a troop of cavalry were reduced, while the enlisted strength of each company of infantry was increased from 106 to 112.

Enlistments for the new regular army are being made at an unprecedented rate. Many of the men of volunteer organizations now being mustered out in southern camps are enlisting in the regular service. These men will receive credit for their volunteer enlistments, enabling them to secure continuous service pay, but will be obliged to join the army for the prescribed period of three years, volunteer service not counting as part of this.
